

- 1** Determina el volumen en la unidad indicada, tal como se indica en el ejemplo.

Ejemplo:

$$\text{A grey bucket} = \text{Three grey pitchers} \rightarrow \text{A grey bucket} = \boxed{12}$$

(a)

$$\text{A grey bucket} = \text{Six clear pitchers} \rightarrow \text{A grey bucket} = \boxed{30}$$

(b)

$$\text{A grey pitcher} = \text{Three small glasses} \rightarrow \boxed{3}$$

- 2** Determina el volumen en unidades de cubo.

(a)

19 unidades de cubo.

(c)

16 unidades de cubo.

(b)

40 unidades de cubo.

(d)

18 unidades de cubo.
